#### Vice President/Research Promotion

Rachel Roy, P.E.\*

### President's Message

Greetings, Everyone!

The new ASHRAE year has officially started and we kicked it off with some great events! Our first annual mini golf tournament was a hit and, despite the hot weather, we had great turnout and ended the day with ice cream. Congratulations to Bradley Hancock for getting the lowest score and to Jon Graham for winning the Hole in One competition!

Our first chapter meeting at Foundation Brewing was also a great way to network with old friends over some delicious brews. Thanks to everyone who could make it out!

This year we are going to get

### **Next YEA Event - Thursday, Oct 18th**

Thursday October 18, at 33 Elmwood in Westbrook for bowling, bocce, and networking.

You will not want to miss this fun night!

If you or your firm would like to sponsor the next YEA event please email  
bhackett@harriman.com.

**ASHRAE 365 Mobile App**

involved in our community more and are looking to use some fund money from ASHRAE Society to start a project with a non-profit group in need. The goal of the project is to either renovate a small HVAC system or to build a STEM lab for kids in a community center to get them more interested in STEM fields. We are aiming for spring time to start this project and would like to do this work in the greater Bangor area so students from UMaine and EMCC can join us. If you know of a non-profit in need, please send me an email at  
maine\_president@mail.ashrae.org and we can discuss in more detail.

Our next meeting will be a joint meeting with the Granite State chapter in Portsmouth. We will be hearing a presentation from an ASHRAE Distinguished Lecturer so it's sure to be a worthwhile meeting. Hope to see you there!

Thank you,  
Mackenzie

### **Thursday, Oct 11 - Joint Chapter Meeting with Granite State ASHRAE**

Roundabout Diner  
580 Portsmouth Traffic Cir,  
Portsmouth, NH 03801

Distinguished Lecturer Gordon Sharp discusses the issues of energy and airflow measurement and control in the Laboratory environments. As you are aware, laboratories have stringent airflow refresh requirements and therefore consume a great deal of energy. Gordon is the founder of Aircuity Inc, which is focused on using sophisticated control systems to modulate the airflow and therefore air quality in the lab environment, while minimizing energy consumption.

Cost: \$35

Register and pay [here](#).

## Upcoming Meetings

Nov 13 - Tuesday, (Tentative date): Tour of the Geiger Building in Lewiston

Dec 11 - Tuesday (Tentative date): Past President's Night and Holiday Party at Martindale Country Club in Auburn

ASHRAE 365 is a new mobile app that allows you to easily access ASHRAE information on your Apple or Android devices, 365 days a year. True to its name, ASHRAE 365 can be used year-round for one-tap access to information about events, standards and guidelines, continuing education, industry jobs, and much more. ASHRAE 365 will also provide the tools you've come to appreciate in a conference app, like the ability to create your itinerary, provide feedback about speakers, and connect with attendees. Find it in the APP Store
